Space marvel with maximum comfort

Safe, comfortable and exciting: The new Big Master has impressively generous dimensions, a classic design, exclusive standard features and a tack room in which every detail is just right. The world-class "WCFplus" chassis guarantees maximum travelling comfort. Your trailer – our masterpiece.

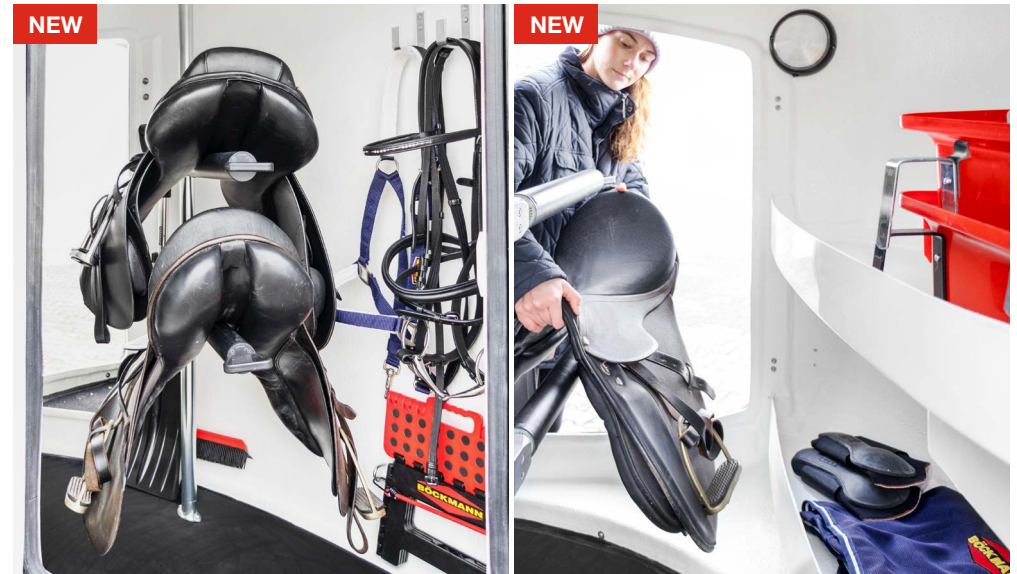

Plenty of room for your horse with a width of 1.75 m.

Maximum comfort for the horse's head and neck with an internal length of 3.90 m and an interior height of 2.30 m.

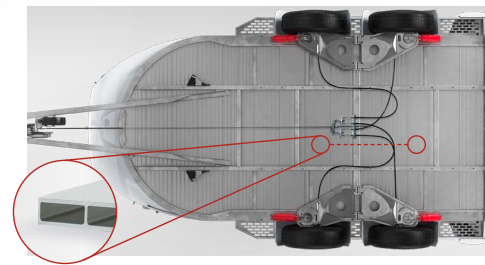

Excellent access to the horses and easy loading with extra space between the front stall bar and the saddle compartment.

Trailers shown include special accessories in some cases.

Standard equipment highlights

Plenty of space and comfort is provided by the tack room which is accessible from the inside and outside and features practical shelves and plenty of storage space. In addition to the horizontally and vertically adjustable as well as pull-out saddle rack, a broom, shovel, door net, mirror, riding crop holder, feed bucket, large bridle hooks, pad holder and folding stool with safety catch are also included in the standard equipment. Western version also available.

Robust and rot-proof due to the solid quality full aluminium floor with closed profile for reinforcement in the horse stall area.

Safe transport due to the track-proven Bockmann partition wall and the height-adjustable safety stall bar system with tie rings. Further protection is provided by the additional stall bar padding as well as the padding and kick protection on the side walls.

about the Big Master!

Fast safety

in an emergency thanks to the track-proven Multi Safe system stall bar panic system (MSS) for front and rear. The wheel spanner is included in the standard equipment.

Good ventilation

provided by the tarpaulin lift with integrated net and by the tinted and dazzle-free windows with pop-up function and safety grille.

Soothing atmosphere

provided by the blue LED transport light – can be conveniently switched from blue to white.

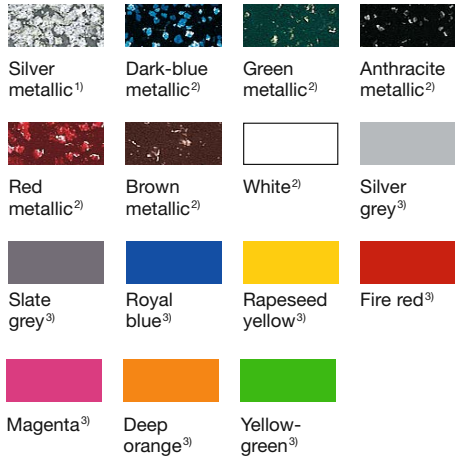

Travelling comfort

ensured by the world-class chassis to automotive standards with wheel shock absorbers.

Available colours

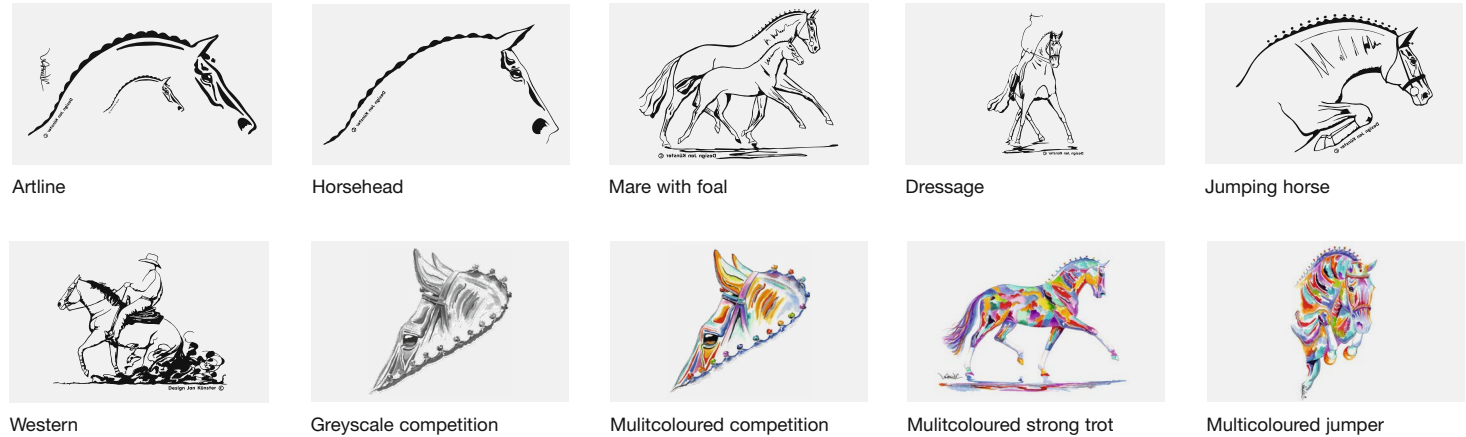

for full polyester superstructure
